ROCKTON ADVANTAGES

UV RESISTANT

Rockton is impervious to the sun’s UV radiation, making it perfect for outdoor applications.

ANTI-MICROBIAL & FOOD SAFE

Made from pure natural materials, Rockton is safe for direct contact with food.

DIMENSIONAL STABILITY

Rockton has a very low thermal coefficient, so it will not change with extreme temperature fluctuations.

EXCEPTIONAL MECHANICAL DURABILITY

Rockton is hard and resistant to damage during everyday use.

HEAT RESISTANT

Fire and heat resistant, Rockton is perfect for all kitchen applications.

LOW WATER ABSORPTION

Fire and heat resistant, Rockton is perfect for all kitchen applications.

STAIN RESISTANT

Rockton highly resistant to aggressive chemical products used in kitchens and bathrooms.

DIAMOND STRONG

Rockton has a super hard surface that can with stand normal wear and tear with ease.

Natural

Restoring the authentic texture and color of natural stone, this series embodies boundless artistic creativity in both spatial and domestic settings, ingeniously crafting an ambiance of refined luxury.

Natural Series

Mineral

Mineral is a product line crafted from natural slab materials, showcasing the exquisite stone treasures bestowed upon us by nature. Setting itself apart from conventional marble and granite, Mineral embodies the vivid hues and intricate patterns reminiscent of gems, crystals and agate. Its texture offers a tactile experience akin to handling precious gemstones.

ULTRA LIGHT SYSTEM

Rockton slabs can be applied in a variety of ways to ensure the best fit for every situation. Consult with your project manager or engineer for the best cladding system for your wall.

The 6063T5 extruded section, extrusion of horizontal profiles aluminium of GB5237.1~5-2008, GB5237.6-2004.

Specialized stainless steel back groove type attachment fittings. The quantity depends on the load.

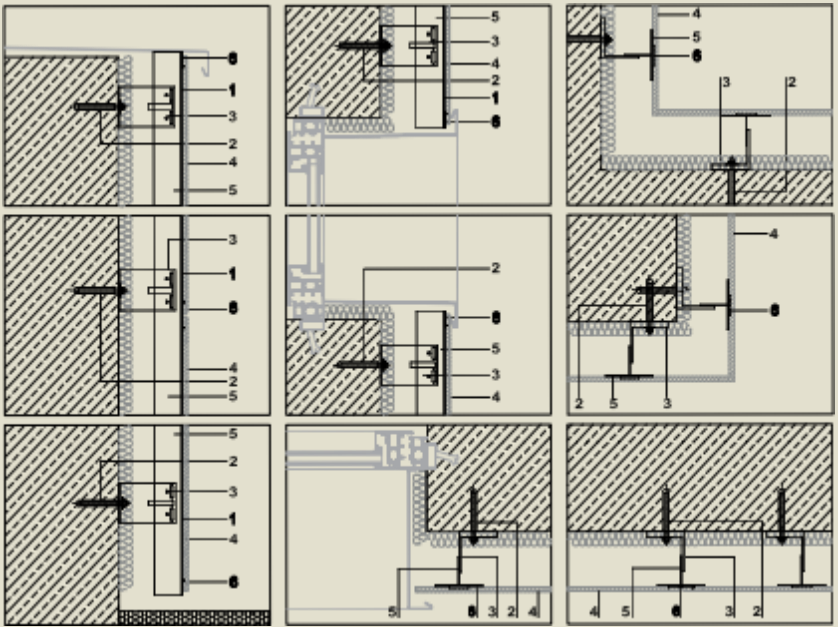

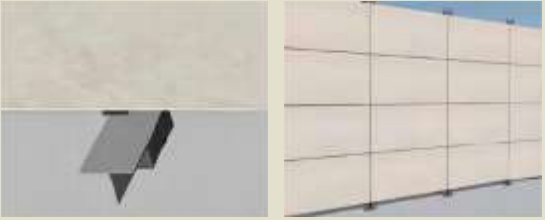

Fixed hook, extrusion of alumiumm alloy 6063T5 by inserting horizontal profiles GB5237.1~5-2008, GB5237 .6-2004.

Fix the support on the structure with mechanical or chemical bolts when necessary.

Fiberglass reinforcing net, grid of 5X5mm. Uniformly brushing of epoxy resin on the back.

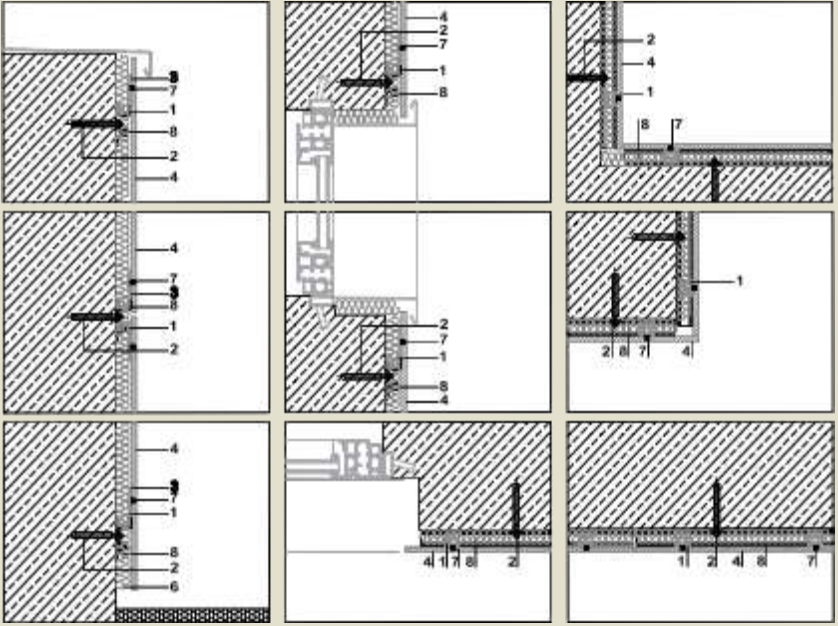

The lightweight system provides detailed drawings of the joints laid on the wall and the horizontal section installation, and joints are added according to the spacing width.

6mm Installation Example

- 1.Adhesive layer
- 2.Bolt
- 3.Screw bolt
- 4.Large slate
- 5.Cube/column
- 6.Plug hardware access
